GRADUATE STUDENT RESEARCH IN PLANNING URBAN DESIGN

AND URBAN AFFAIRS: 1972 - 1974

by

Dr. William W. Ray
and
Claudia Clark,
Research Assistant
Department of Urban Studies
Texas Christian University
Fort Worth, Texas

INTRODUCTION

The following bibliography contains a listing of dissertations, theses, and thesis alternatives completed or currently under investigation by graduate students in either planning, urban design, or urban affairs. A total of 947 titles are included: 777 completed and 170 in progress. Several entries are dated prior to 1972 and included because they were not reported in the previous listing (Exchange Bibliography #355).

Data for the bibliography were obtained through questionnaires mailed to every graduate department listed in the ASPO-AIP publication, Education and Career Information for Planning and Related Fields: January 1973. The respective number of dissertations, theses, and thesis alternatives per graduate institution is summarized in Table 1.

The current work is an extension of Exchange Bibliography #355, A Bibliography of Dissertations, Theses, and Thesis Alternatives in Planning: 1970 - 1972. Future Bibliographies relating to graduate student research will be issued annually.

Table 1.

DISSERTATIONS, THESES, AND THESIS ALTERNATIVES

BY GRADUATE INSTITUTION: 1972-1974

Institution ¹	Doctoral Dissertations		Master's Theses		Master's Thesis Alternatives	
University of Arizona	-	- ^a	2	- ^a	8	- ^a
